

## PipeCut 220 INOX

- Especially for stainless steel pipes
- Unique worldwide
- Worker guidance through engine load indicator
- With laser indicator for a perfect cut
- High precision due to more guide rollers
- All contact points made of stainless steel

Weight	11,5 kg
Range of use	20 - 220 mm
Max. pipe wall	12,5 mm stainless steel
Suitable for	Stainless steel

### Technical data

Voltage / Power	220-240V   1.600W
No-load speed	1.900 u. 2.885 rpm
Ø Blade diameter	140 mm
Mounting bore	62 mm

### Scope of delivery

PipeCut, carrying case, 4 pipe supports, saw blade INOX 140, operating instructions, hexagon socket 5 and 2 mm

## PipeCut 360 INOX

- Powerful motor with 2,500 W
- Worker guidance through engine load indicator
- With laser indicator for a perfect cut
- High precision due to more guide rollers
- All contact points made of stainless steel

Weight	17,5 kg
Range of use	75 - 360 mm
Max. pipe wall	15 mm stainless steel
Suitable for	Stainless steel

### Technical data

Voltage / Power	220-240V   2.500W
No-load speed	2.900 u. 3.990 rpm
Ø Blade diameter	190 mm
Mounting bore	62 mm

### Scope of delivery

PipeCut, carrying case, 4 pipe supports, saw blade INOX 140, operating instructions, hexagon socket 5 and 2 mm
